

RATE HARMONIZATION

Temporary housing and
post-acute care beds
For users and their loved ones

We have harmonized the rates for temporary housing and post-acute care beds for users residing throughout the Montérégie-Ouest region.

The following rates therefore took effect on June 1, 2020:

Temporary housing (family respite services, social emergencies, etc.)

The rate applicable throughout the territory is now \$15 per day, starting on the first day of temporary housing.

Post-acute care (convalescence, functional recovery, rehabilitation, regaining autonomy, etc.)

The harmonized rate is now \$15 per day for users in all post-acute care programs. The rate takes effect on the 31st day after the user is admitted, with the exception of physical health beds (rehabilitation) at Hôpital Anna-Laberge (current room rates apply).

These new harmonized rates are effective throughout the COVID-19 pandemic, after which they will be re-evaluated.
